

Latest PC error diagnostic and repair tool.

Windows Registry SWEEP is the latest in PC error diagnostic and repair. Windows Registry SWEEP will do a complete scan and clean of your entire file system and registry in under 2 minutes!

All corrupt files, paths, and registry keys will be analyzed and automatically repaired so that your PC functions just as when you first purchased it, Guaranteed.

Problems with the Windows Registry are a common cause of Windows crashes and error messages.

By using a PC tune-up utility such as Registry SWEEP regularly, your system will be more stable, your software will run quicker, and your operating system will boot faster.

Registry problems can occur for many reasons, including references left behind after uninstallation; incorrect removal of software; missing or corrupt hardware drivers;

or orphaned start-up programs. With a few easy steps, Registry SWEEP will scan your entire registry for any invalid entries and provide a list of the errors found.

You then can choose to clean each item or automatically repair them all after making a backup.

TriedTool products are free of spyware and adware.

Why pay a computer technician hundreds of dollars when you can do it yourself free?
